# Morteza Yousefi

Product Manager at FANAP

Iran

## Summary

I've started as a business and system analyst in ERP solution development team, honored to be a member of ERP development and deployment projects with some industrial holding companies such as INSIG, Almahdi Aluminum, MIDHCO and POSCOICT in Iran. I'm trying to develop my skills, abilities and specialties in software applications and platform development, database and data sciences, business knowledge and consultations by the years. Now I'm working in a great team, great company and great wishes to develop industries as a products manager.

---
